would have responded gladly to the appeal.

You will be glad to hear (unless my brother has already mentioned it to you) that my work has hitherto not been in vain. To get our degrees in Medicine, we are obliged to pass three "Professional" Examinations, written and orally on the various subjects of the Medical Curriculum. It came to me that I should have to pass up for my "First" in October. Accordingly it required that I should take no holidays but work steadily on for it. I am glad to say that I passed my examination successfully. Got one day's holiday, and then on Oct. 31st the Winter Session began again. My classes this winter are very interesting indeed, including Surgery, Institutes of Medicine, and Anatomy.

I wish you could visit Edinburgh like Mr. Panastoff! What a pleasure it would be to me to escort you to all parts of this lovely city! My time was much hampered when Mr. Panastoff was here so that I did not see as much of him as I would have wished. Still I think he enjoyed his visit much.
