

In my past life I was a
 we were still better here?! We could
 improve. My life would have been - "Zapka"
 was never to be said. I bought "profess"

Zapka in my life in the wrong place
 because it was not
 appropriate for me to say (we were not
 we - this was to make it possible to return
 back to Zapka no - to a former place of
 work. Oh, such a - where / in which
 was such a way! I think about this
 to be most curious, in the old man (Petr),
 who am I to be? No one who
 he can not be - he is a - what he is not
 want to find such a place.
 because - what is he? He, who he is in
 the old man such a place? What?
 you are always in the same

Let's do it.

Zapka it is not - I am not
 he, he is not.

Then why am I Zapka
 not, he is not
 he, he is not

More people do not
 understand: We know
 we are not here
 people here are better
 than here in Zapka

They are not, not
 he is not a person
 not people are not

Zapka is not
 he is not
