

Be creative from scratch,
start with what's been angloized
or hasn't been.

Or simply take a bridge and adapt it.

~~My thoughts~~

I think, first, let's consider
what would be the message

you want to communicate

What do you want
~~to say~~ ~~to communicate~~

What do you want
to convey?

It's going to require a lot of
creativity and originality, but if you
can make it clear, then
it's going to be easier to
communicate.
