

- Invention of the steam engine  
 - and the steam locomotive  
 - were the first of the great  
 - inventions of the nineteenth century  
which have revolutionized the world.

the invention of the steam engine  
and the steam locomotive  
 were the first of the great  
 inventions of the nineteenth century  
 which have revolutionized the world.  
 The steam engine was invented  
 by James Watt in 1769.  
 It was a major improvement  
 on the Newcomen engine.  
 The steam locomotive was  
 invented by Richard Trevithick  
 in 1804.  
 It was the first of the great  
 inventions of the nineteenth  
 century which have  
 revolutionized the world.  
 The steam engine and the  
 steam locomotive were  
 the first of the great  
 inventions of the nineteenth  
 century which have  
 revolutionized the world.
