

~~Chrysanthemum, Chrysanthemum repandum
planted at Kew Gardens - reported
as more frost hardy than Chrysanthemum
in autumn no signs of damage~~

~~Crocosmia (Montbretia) have
proven to be very effective in the
border, especially in bright sunny
sites, flowering from July to October.
Height about 100 cm.~~

~~Chrysanthemum repandum has been
selected for its
superior foliage and
resembling Chrysanthemum
in flower and foliage. It has
been selected for its
bright yellow foliage and
superior foliage.~~
